## **KNEBES INTERIOR**

We occasionally name a Seat Cover Style, a Panel, or a Complete Interior after the first customer who ordered it. Because it is distinctly unique, the name associated with the interior immediately identifies all the sewing details to all of our staff...no detailed explanations required in the manufacturing process. The KNEBES INTERIOR is legendary to Sewfine, and remains one of our most popular styles. The Interior is sewn with Black Vinyl, but can be made in any color Vinyl. It is a 1 Color Interior, mainly defined by Contrasting Stitching and French Seams.

**CONTRASTING THREAD:** The Knebes interior is sewn with heavy red contrast thread, but others are available – Black, Lt. Gray, Orange, Yellow, Brown, Sand, "Tie-Dye" Multicolor and Blue.

**KNEBES SEAT COVERS** have Red Heavy Contrast Thread through the Pleat Lines, as well as on the French Seam Edging detail. Available on Low Back Seat Covers only. Add \$450 to the price of Standard insert Seat Covers on pages 12-13.

**KNEBES DOOR PANELS** have Red Heavy Contrast Thread through the Pleat Lines, plus 2 French Seams on the panels. Add \$150 to the price of 58-59 Style Door panels on page 25, Style A for Bugs. For Ghia, add \$150 to 56-57 Ghia Style on page 23.

**KNEBES ARMRESTS** have Red Heavy Contrast Thread on the armrest (1956-'67 and 1973-'79 only). See Pricing on page 22.

**KNEBES HEADLINER** has Contrast Thread on each side of the seam for the listing sleeves, but creating this look requires the Headliner to actually be sewn 4 consecutive times to get all the thread sewn. Add \$375 to the normal headliner price.

## DECORATIVE STITCHING with HEAVY CONTRAST THREAD

Regular Sewing Thread is used on all Sewfine Products, but Decorative Stitching requires Different Sewing Machines, Different Thread, Different Needles, and a well-experienced skill level to create this effect, but the result is striking.

## LITTLE SISTER DOOR PANEL

If any of you have viewed the *Bitchin' Rides* TV Episode called **"The Little Sister"**, you will immediately recognize this vehicle. We designed this Door Panel solely for this Episode, and now it is available for any year Bug. **Sewfine** had the honor of making and installing this interior for the show; an experience we will never forget! It's "Big Brother" was the 21 Window Bus featured on the *Bitchin' Rides* TV episode **"Back to Basics"**, which Sewfine also made and installed the interior for. The 3rd episode, **"Dave's New Toy"** was filmed at our shop.

The **"LITTLE SISTER DOOR PANEL"** is shown with armrests (not included) on both doors, with split Chrome Lines on both sides of the armrest, and chrome on the Rear Panel. This is not a stock arrangement, so required us to use pieces from 2 sets of door chrome. Sunroof Headliner and Seat Covers were made to match the door panels for a stunning single color interior. Shown in Kindig Red Vinyl, Group B Vinyl.

**KINDIG RED ULTRA VINYL**, Group B Pricing

## TYPE III CUSTOM DOOR PANELS

**The FLAP PANEL for the Fast/Notch/Square Follows The Long Armrest**

Use for Type III Panels that have the Long Armrest, but still require a 1PC Front Door Panel. We split the Fabric/Vinyl right along the Armrest line, put 1 color on the top, a 2nd Color on the Bottom. The top color continues onto the balance of the panels except for the lower rear panels, which will match the lower color.

<b>Custom Shifter Boot / Scat</b>	\$45/ea
<b>French Seaming/Contrast Thread</b>	Add \$10
<b>Stock Ebrake Boot</b>	\$15

### HUSH MAT

Hush Mat is easy to use. Peel and stick sheets are cut with household scissors. Use to reduce the metal "tin can" sound, or engine noise anywhere in your car. Also use to reduce heat from big motors. About 8-10 pieces strategically placed make a significant difference. Some choose full coverage.

<b>1 Sheet / 12" X 23"</b>	\$18
<b>Box of 20</b>	\$350

(Squareweave Carpet Kits have a grommet-bound shifter and EBrake.)

### SPRAY ADHESIVE

For use with Carpet, Headliner, and Insulation Installs. We recommend 2-3 cans for Carpet and Insulation.

**\$20/can**  
2-3 cans for Headliner Install  
2-3 cans for Carpet/Insulation Install

### TUNNEL CUTS

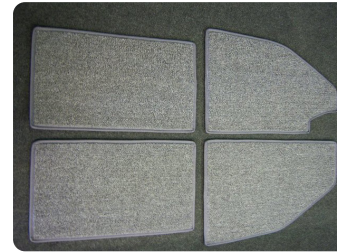

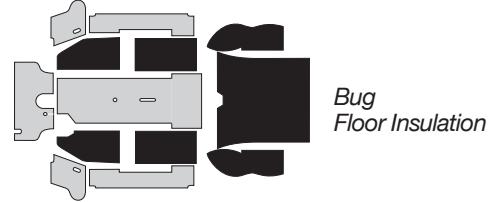

We will cut and bind the tunnel for the stock shifter and eBrake on all Loop and Cutpile Carpet Kits unless otherwise requested. The carpet is cut and rolled to the back side, creating an attractive "Rolled Carpet" edge on the front side.

## CARPET INSULATION

Thick jute padding which reduces road heat in the summer, and insulates in the winter. Also acts as soundproofing. If Hush Mat is used, this installs over the Hush Mat.
